Dear Harold,

Hello from Australia.

I was in London recently and purchased three of your books ( Case Open, Never Again and Selections from Whitewash).

Your direct style and detailed knowledge of the workings involving the investigation or should I say non investigation is so informative.

Thankyou for your work, Case Open. Gerald Posner I am glad to see is the shark that many people believed he was.

Your work has interested me and I would like to purchase the other books you have written. Please send me details on the price and ordering arrangements for your books.

I look forward to your reply.

Yours Sincerely

David Izzard
